SUMMARY

I am a final year BIM student eager to gain real-world experience in the field of Search Engine Optimization (SEO), content strategy, and digital growth. I am skilled in keyword research, on-page optimization, technical SEO principles, and content structuring for improved search visibility. I am passionate about driving organic growth through data-driven SEO strategies.

SKILLS & INTERESTS

SEO & Optimization

- On-Page SEO (meta titles, meta descriptions, heading hierarchy, internal linking)
- Keyword research
- Technical SEO (crawlability, indexing, site architecture)
- Content optimization aligned with ranking factors
- Off-page SEO fundamentals and backlink strategy

Tools & Platforms

- WordPress
- Google Analytics (traffic, behavior, performance insights)
- Google Search Console
- Git & GitHub

Content & Research

- Structured content writing
- Research and analysis
- Competitor and trend observation

EDUCATION

Tribhuvan University (St Xavier's College)

Kathmandu, Nepal

Bachelor in Information Management

2021- present

- A comprehensive course (126 credits) that includes subject matters related to Information Technology and Business Management. The course intermingles management themes with IT and explores the scope of web development, SEO, digital marketing, programming, and management.

National Examinations Board (Radiant Secondary School)

Mahendranagar, Kanchanpur

Higher Secondary Education (Science faculty)

2018 - 2020

- Pursued my higher secondary education within the Science faculty. Took classes for Physics, Chemistry, Mathematics, and Computer Science.

PARTICIPATIONS

SXC SANDBOX 2.0 - A 48- HOUR HACKATHON

Kathmandu, Nepal

St. Xavier's College

03/2025

- 3rd place out of 27 teams
- Built "BikriBagaicha", a React Native app connecting farmers directly with vendors
- Collaborated in an agile team environment under tight deadlines
- [Click Here](#) for the GitHub repository of BikriBagaicha.

Hult Prize**St. Xavier's College****Kathmandu, Nepal****02/2023**

- Participated as a competitor in the Hult Prize at St. Xavier's College, Nepal. Focused on sustainable fashion, our team presented a business idea on making apparels using recycled items.

PROJECTS**BIM Summer Project**

- Developed my summer project titled "GiveHeartedly: A Charity Fundraising Platform". GiveHeartedly is a fundraising website that allows users to create fundraising and donate to meaningful campaigns.
- The project was built using the MERN stack. [Click Here](#) for the GitHub repository of GiveHeartedly.

Cloud Security Audit Framework

- Developed a cloud security assessment platform that evaluates cloud infrastructure against industry standards across six security domains (IAM, Network Security, Data Protection, Logging & Monitoring, Configuration Management, and Incident Response).
- Built using React, React Router, and Vite. [Click here](#) to visit the web-based prototype.

Portfolio Website

- Built a personal portfolio website, showcasing my interests, projects and skills. [Click here](#) to visit the website.
